<Senior Software Engineer/>

Hi, my name is **João Cercal** (BSc in Information Systems). I am passionate about creating innovative, scalable solutions that empower people to do what they love. I've become a PHP specialist with expertise in Golang and other languages, working with talented individuals worldwide. Since 2009, I've been a dedicated web developer and a certified Staff Software Engineer. ♥

Skills

(some of the things I've been working with)

...

Java
Distributed teams
SOLID
Terraform
Elastic Search
Spryker
Linux/Unix
CSS (SASS, LESS)
Angular JS
Python
SQLite
Symfony
jQuery
AWS
MongoDB
Laravel
Kafka
Git
GO
PHP
Bash Script
Agile
Memcached
Redis
JS
HTML
Docker
RabbitMQ
Typescript
MySQL
Tests
Vue.js
Node.js
Zend
ADR
CI/CD
PostgreSQL
Blackfire
Design Patterns
Magento
Pair-Programming
Wordpress
Rust

Latest Work Experience

(you can check previous positions on my linkedin profile)

...

```php
<?php echo "Staff Software Engineer at LastPass (2024 - Present)";
```

Security and Risk Mitigation: Leading initiatives to prevent account takeovers and managing Akamai services, including Bot Management and WAF, to enhance platform security and protect user data;

Engineering and Automation: Delivering scalable, high-performance software solutions and optimizing processes through automation to improve reliability and reduce manual effort;

Leadership and Mentorship: Driving project design and development strategies as a Tech Lead while mentoring junior developers and fostering a culture of continuous learning and professional growth.

```php
<?php echo "Senior Software Engineer at Emma (2024 - 2024)";
```

Architected, designed, improved, and implemented Emma's technology components, boosting e-commerce performance by developing features in Golang and Java. This led to fast order processing with an event-driven architecture, enhancing the end-to-end purchase process, fewer bugs from better test coverage using testing containers, and streamlined service dependencies, reducing team conflicts;

Mentored junior developers, conducted code reviews, and fostered continuous learning, resulting in improved code quality, team cohesion, and development efficiency.

```php
<?php echo "Senior PHP Developer at Turbine Kreuzberg (2022 - 2024)";
```

Making the most of PHP and the Spryker framework/ecosystem to design, develop, and maintain robust e-commerce solutions, ensuring efficient operation of digital platforms;

Optimizing e-commerce performance through meticulous coding skills and a comprehensive understanding of the Spryker framework, which directly leads to enhanced user experiences, faster page load times, and increased conversion rates for our clients;

Collaboratively solving complex challenges within our agile development environment, actively collaborating with cross-functional teams to tackle intricate challenges, utilizing problem-solving skills and technical expertise to create innovative solutions that drive the success of our large-scale e-commerce projects.

```php
<?php echo "Senior Software Engineer at Spectrm (2020 - 2022)";
```

Making a significant impact on the market by helping top-tier companies engage consumers effectively through innovative chatbots on major messaging platforms. This resulted in substantial sales growth and strengthened brand loyalty;

By designing, developing, and launching scalable solutions to tackle intricate business challenges, with a lasting focus on scalability, I significantly improved operational efficiency, expanded the company's market presence, and ensured long-term adaptability, driving the business to new heights;

Led backend chapter meetings, mentored junior developers, and played a crucial role in defining migration strategies for essential platform changes;

Introduced architectural decision records (ADRs), conducted post-mortems, and facilitated lightning talks to promote a culture of continuous improvement within the engineering team.
